GOVOPTIMA

FEDERAL TECHNOLOGY SOLUTIONS

Data intelligence | Secure modernization | Operational excellence

DATA-DRIVEN SOLUTIONS FOR FEDERAL MISSIONS.

Integrated technology capabilities for mission-critical modernization and operational performance.

CORPORATE OVERVIEW

GovOptima LLC delivers integrated technology solutions that help federal agencies modernize systems, activate enterprise data, and improve mission performance. Formed as a joint venture between Synectics for Management Decisions, Inc. and Swartek Corporation, GovOptima draws on complementary expertise in advanced analytics, software engineering, automation, cloud modernization, and secure IT delivery to turn complex requirements into practical outcomes.

CORE COMPETENCIES

DATA MANAGEMENT & INTEGRATION

Data architecture, quality, governance, systems integration, transformation, and enterprise reporting.

AUTOMATION & PROCESS OPTIMIZATION

Intelligent workflow automation, process improvement, and reduced manual effort.

AI & ADVANCED ANALYTICS

Predictive modeling, visualization, actionable insights, and AI-enabled decision support.

CUSTOM SOFTWARE SOLUTIONS

Mission-oriented applications, software engineering, and user-centered digital solutions.

CLOUD & DIGITAL MODERNIZATION

Cloud adoption, migration, application modernization, and enterprise system integration.

IT PROGRAM & PROJECT MANAGEMENT

Agile delivery, technical oversight, coordination, and program execution governance.

CYBERSECURITY & RISK MANAGEMENT

Risk assessments, data protection, security-focused architecture, and compliance support.

MISSION OUTCOMES

Improve data accessibility | Accelerate informed decisions | Strengthen security and compliance | Streamline workflows | Support agency modernization
